Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Many job seekers struggle to create professional resumes due to lack of design expertise or time.
2.	Idea / Solution description	Develop an AI-powered resume builder that simplifies the process by generating tailored resumes based on user inputs. Users can select from various templates, customize specific sections, and download resumes in multiple formats.
3.	Novelty / Uniqueness	The platform integrates cutting-edge generative AI to create contextually accurate and visually appealing resumes. It offers dynamic customization, template previews, and real-time feedback to users, setting it apart from traditional tools.
4.	Social Impact / Customer Satisfaction	The solution empowers individuals by simplifying resume creation, boosting their confidence, and increasing their chances of securing employment. This reduces job search stress and fosters accessibility for all users.
5.	Business Model (Revenue Model)	The platform could operate on a freemium model: basic features are free, while advanced templates, custom prompts, or priority support are offered through subscription or one-time payments.
6.	Scalability of the Solution	The solution is highly scalable, leveraging cloud infrastructure to handle increased user demand. Additional features like multi-language support and industry-specific templates can be added to expand its user base globally.
